## REPORT OF LIBRARY TRUSTEES

The trustees acknowledge with gratitude the gifts of books and magazines listed in the librarian's report.

Books have been borrowed from the State Library to supplement our own and we are pleased to note a large increase in the book circulation.

It will be necessary to add shelves in the reading room during the coming year to accomodate the juvenile collection.

The new set of Compton's Pictured Encyclopedias has been found very valuable, especially to the school children.

# SCHOOL REPORT

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of North Hampton:

I herewith present to you my seventeenth report as Superintendent of your schools. With the exception of the September enrollment for the current year and the tuition list, all figures are for the year extending from September 1945 to June 1946 — the last completed school year.

The school year began Monday, September 9, 1946 with an initial enrollment of 105 pupils. This compares with last years figure of 102. Since September, additional pupils have registered. Thirteen graduated in June 1946. The present enrollment of the eighth grade is nine.

There was but one change in the staff of the North Hampton schools. With the resignation of Mrs. Louise MacKenzie after twenty years of service to the children of the district, it became necessary to secure another teacher of the primary grades. Miss Una Dearborn of Concord was engaged for this position. She is a teacher of ability and of successful experience in the schools of New Hampshire.

Under the guidance of Mrs. Frances Leavitt as Principal, the school has advanced in scholarship. The spirit of the school is one of cooperation among the teachers and united effort on the part of pupils and teachers alike.

It is a just cause of pride that eight of the twelve pupils first entering Hampton High School in September 1946 were recorded in the first honor roll issued by that school. This is the result of a uniformly good teaching staff. It is our purpose to keep this staff intact. Mrs. Foster's work in the teaching of music to our pupils is well known by the townspeople. Her skill and enthusiasm are introducing our children to a real love of music. It is to be regretted that there is no supervision of art this year. The individual teachers, however, are devoting additional effort along this line and in this way minimize any possible loss.

The children of the district are benefiting from the federal lunch program to the extent that each child may purchase milk during every school day. The federal government pays two cents on the cost of each one-half pint bottle with the child paying four cents. An average of sixty pupils daily use this service. Adding this to the unusually good lunches furnished under the auspices of the school district our children are well cared for.

The moving picture machine presented by the Parent-Teacher association is used consistently as a means of furthering the education offered by the school. Visual education is a comparatively new field and, as new classroom films are developed, will be more closely aligned with formal training. It is an efficient means of presenting clearly lessons which have formerly been learned only through books.

Education, as a whole, is facing grave financial problems. With increased costs on every hand, salaries must rise if we are to retain our standards. Supplies and equipment are increasing in price continually. At the same time increased demands are being made upon education. It seems to many people that these increased costs should come from a larger unit of revenue than the individual school district. Recommendations will go to the general court for increased state aid to take care of these additional expenses. If these are approved, our town and cities will receive assistance in meeting additional costs. Until such time as this aid may be available, there seems no alternative but to increase school budgets.

As our graduates enter a more complex world it seems that a more accurate pupil accounting system is necessary. The more we know about our pupils and the more accurately they know themselves, the better are their probabilities of success. Employers are depending more and more upon school records for employee placement. They wish to know more than the percentage rank a pupil received. Personal characteristics, work habits and social behavior are of importance to them. The schools must be able to interpret the pupil as a whole. With this purpose in mind, individual rec-

ords are to be kept of each child. They will be used as a further guide in the selection of the high school courses suitable to the pupil.

This record will be of value in the guidance work which was begun last year. The various aptitude tests to be administered, should show the pupil the type of vocation for which he is at present adapted and start him analyzing himself in an intelligent way. This program should be continued with the understanding that junior high pupils are too young for actually making definite decisions as to future livelihood. Larger schools employ trained counselors for this work. North Hampton last year secured the services of a representative of the Boston University Counseling Department. He spent several days analysing the various test results and pupil ranks as well as individual conferences with each pupil. The children showed great confidence in him revealing their real attitudes toward their little, but to them serious, problems. His advice to them showed understanding and encouragement. His services should be continued as an approximation to the services offered in large systems.

In September 1946 a New Hampshire School Boards Association was formed. Its first purpose is "to provide for closer cooperation among the school boards within the state to the end that school pupils shall be better educated to meet social, political and economic demands of successful living." The Association is a valuable one since members discuss their problems with others in similar situations. The voting member from Supervisory Union 21 is Mr. Chester A. Davis of North Hampton.

It is always a pleasure to visit your schools. Cooperative effort among teachers and pupils is very evident. I wish also to thank you, as a board, for valued help in the duties of my office.

Respectfully submitted,  
ROY W. GILLMORE,  
Superintendent of Schools.

## REPORT OF SCHOOL NURSE, 1946-1947

---

The School nurse visits the North Hampton school the first and third Monday of each month.

In November and December Dr. Bailey of Hampton examined the second and sixth grades for the annual physical examination. The other grades are examined by the school nurse. This examination included checking tonsils, adenoids, teeth, eyes, ear, skin and hair. Children are also weighed and measured.

First aid supplies are checked at the beginning of the school year. Home visits are made by the nurse in sickness and also to acquaint the parents of any physical defects in the pupil.

Respectfully submitted,  
DOROTHY E. LINDSEY, R. N.
